Statement by SKG

This approval has been issued on the basis of BRL 2701: 12-12-2012 in accordance with the SKG Regulations attestation, product certification and process certification: 2011.

SKG declares that the façade elements from the aforesaid system deliver the performance as described in this approval, provided:

- the conditions of application and technical specifications laid down in this approval are met;
- the production and installation of the façade elements occurs in accordance with the instructions and/or processing methods laid down in this approval.

SKG declares that, taking into account the above, the façade elements in their applications meet the requirements of the Dutch Buildings Decree as specified on page 2 of this approval.

SKG declares that for this approval no inspection takes place on the production of the façade elements nor on the installation in buildings.

This approval is a recognised quality statement for the Dutch Buildings Decree in accordance with the Tripartite Agreement (Government Gazette 132, 2006) and the Housing Act. The approval has been included in the "Overview of recognised quality statements in the building industry" on the website of SBK: www.bouwkwaliiteit.nl.

On behalf of SKG

H.A.J. van Dartel, MSc
Manager Certification

The approval has moreover been included on the website of Stichting KOMO: www.komo.nl. The users of this approval are advised to check www.skg.nl to see whether this document is still valid.

This approval consists of 34 pages

Dutch Buildings Decree

Product is:
Once judged on
Performance in the
application.
Reassessment at least
every 5 years.

IDENTIFICATION OF THE PRODUCT

Products in accordance with this approval are identified by sustainably providing them with a white seal containing the name and/or logo of the holder of approval, together with details of the approval number as well as the classification as this applies as indication for the performance on burglar-resistant properties and for the products, described in this approval, in accordance with NEN 5096 and ENV 1627 determined on class 2, as this is shown in the illustration besides.

If the seal has been applied by the holder of approval, it should be executed as follows:

LOGO holder of approval	Entrematic Group AB approval number: SKG.1471.5028 NEN 5096 + ENV 1627	CLASS 2
-------------------------	--	----------------

Place of the identification:

In the frame rebate of each moving element or in the glazing rebate of each element with fixed glazing.

TECHNICAL SPECIFICATIONS

The technical specifications of the burglar-resistant façade elements are recorded in the annex "TS" to this approval.

SUMMARY MINIMUM PERFORMANCE

Table 1

BUILDINGS DECREE				
Section no.	Subject	Limit value/ determination method	Performance according to quality statement	Note on application
2.15	Burglar resistance	Resistance class 2 according to NEN 5096	Resistance class 2 according to NEN 5096	The identification, as shown above, should be applied on this product
Other numbers	Other sections relating to windows and doors according to BRL 2701		This performance has not been determined under this KOMO approval	

Performance

Burglar resistance: BB-art. 2.130

Façade elements have burglar-resistant properties with a resistance class of at least 2 determined in accordance with NEN 5096.

Note

In this approval, a statement is only made concerning the specific performance relating to the resistance class against burglary as part of the performance mentioned in BRL 2701. For statements concerning performance relating to strength, fire safety, sound insulation, watertightness, air permeability, energy efficiency, etc. refer to the KOMO approval (with product certificate) in question for "Metal façade elements" in accordance with BRL 2701.

Police Label Secure Housing PKVW[®]

Façade elements provided with the SKG burglar resistance marking with class 2 according to NEN 5096 are suitable for use in buildings that meet the Police Label Secure Housing (Politiekeurmerk Veilig Wonen, PKVW[®]), provided the additional requirements are met that are set in the current handbook "Handboek PKVW Nieuwbouw".

Under the regulations found in the Buildings Decree published by the Ministry of the Interior and Kingdom Relations, the quality statement issued by SKG, among other things within the framework of the building permit, is also sufficient evidence as referred to in Article 1.8 of the Building Decree, provided and insofar as this quality statement has been included in the "Overview of recognised quality statements in the building industry" as published on the website of Stichting Bouwkwaliiteit (SBK): www.bouwkwaliiteit.nl and on the website of Stichting KOMO: www.komo.nl and insofar as no higher performance is imposed in connection with the application.

RECOMMENDATIONS FOR CUSTOMERS

- Upon delivery of the products supplied under this approval or in accordance with the technical specifications described in this approval, inspect that:
 - what is delivered has been agreed;
 - the identification in accordance with the specification in this approval has been applied on the products;
 - the products have no visible damage and/or defects due to transport or otherwise;
 - the legal requirements have been met in connection with the application.
- Check that this approval is still valid. To do so, consult the website of SKG: www.skg.nl.
- If on the basis of above statements or on the basis of your own findings, you must disqualify the products, please contact:
 - 1st Entrematic Group AB;
 - and if necessary:
 - 2nd SKG

If a European harmonized technical specification applies for a construction product, the statements in this KOMO approval cannot be used to replace the CE marking on the construction product and/ or replace the relevant mandatory declaration of performance.
